

QUALITY POLICY

Grocon has established a reputation for providing innovative solutions which deliver landmark projects.

Some of the iconic landmarks created by Grocon include the Rialto Towers, Eureka Tower and AAMI Park in Melbourne and No 1 Martin Place, 1 Bligh Street in Sydney and Soul on the Gold Coast, 480 Queen Street in Brisbane.

The successful delivery of these projects demonstrates Grocon's commitment to maintaining an effective Quality Management System, setting high standards and continually improving its effectiveness in line with the requirements of ISO 9001.

Grocon's Quality Policy establishes the framework, driven by our management to achieve our high standards of work by reviewing and continually improving our Quality Objectives with a focus and commitment to:

- Cultivating our profile as market leaders in the Construction and Development Industries;
- Maintain a consistent approach to the delivery of products and/or services;
- Deliver our products and/or services on time, within budget and to achieve complete client satisfaction.

Grocon is committed to achieving and maintaining the best quality performance at all levels of the organisation. Our Quality Management System sets measurable targets. Grocon personnel monitor and evaluate the quality processes to achieve our objectives. We communicate results

and achievements to our all stakeholders, personnel, clients and interested parties.

Grocon's on-going commitment extends to complying with all statutory and legislative requirements, standards, codes of practice and compliance codes relevant to achieving valuable Quality Management.

Our employees recognize their individual responsibilities and contribution to ensure that the intentions of this policy statement are understood, applied and maintained within their own area of activity.

We recognise the importance of achieving Quality Assurance and regularly review our Quality Policy to align with our Strategic Plan, organizational goals and Client expectations.
